<ul style="list-style-type: none">Fruit, Vegetables, Potatoes: Production fruit, vegetables and potatoes system chain based on the system manual of QS Qualität und Sicherheit GmbHCrop Farming: Wholesale, Preparation/Processing, Production.Other Standards: QS-GAP	"QS-Manual", Office of QS Qualität und Sicherheit GmbH as well as criteria for the stages described in the stage-related standards according to the current versions <i>Scheme Type 3</i>

Notes:

1. *The product certification used most closely resembles a product certification scheme type as described in ISO/IEC 17067 (2013), Conformity assessment — Fundamentals of product certification and guidelines for product certification schemes.*
 - a. **Type 3:** *The surveillance part of this scheme involves periodically taking samples of the product from the point of production and subjecting them to determination activities to check that items produced subsequent to the initial attestation fulfil the specified requirements. The surveillance includes periodic assessment of the production process.*

This scheme does not provide any indication of the impact the distribution channel plays on conformity. When serious nonconformities are found, the opportunity may exist to resolve them before widespread market distribution occurs
