Accredited to ISO/IEC 17065:2012

Effective Date May 17, 2019

CATEGORIES of CERTIFICATION

Building Materials

Roof Covering Systems
Doors, Windows and Protective Openings
Structural Insulated Panels (SIPs)
Adhesives
Gypsum Wallboard
EPS and XPS Foam Plastic Insulation
Thermal & Moisture Barrier Underlayment
Cement
Gypsum board and plaster
Lime
Mortar
Mineral Materials and Products
Ceramic Tiles
Terracotta Building Products
Concrete and Concrete Products
Binders and Sealing Materials
Thermal Insulating Materials
Safety Glazing

Building Protection

Thermal Insulation
Vapor Barriers, Waterproofing and Membranes
Wind Bourn Debris Protective Devices

Building Products and Components

Walls and Partitions
Exterior Cladding Systems and Components
Windows, Doors, Frames and Associated Components
Roofing, Ceiling and Floor Products and Materials
Safety Glazing
Adhesives and Fasteners
Thermal Insulation Products

Fire Resistance of Building Materials and Surface Burning Characteristics

Roof Covering Systems

Miscellaneous

Underground Pipe Coatings

SCOPE OF ACCREDITATION

International Accreditation Service, Inc.

3060 Saturn Street, Suite 100, Brea, California 92821, U.S.A. | www.iasonline.org

The product certification used most closely resembles a product certification scheme type 5 as described in ISO/IEC 17067 (2013), Conformity assessment — Fundamentals of product certification and guidelines for product certification schemes.

Scheme type 5

The surveillance part of this scheme allows for the choice between periodically taking samples of the product either from the point of production, or from the market, or from both, and subjecting them to determination activities to check that items produced subsequent to the initial attestation fulfill the specified requirements. The surveillance includes periodic assessment of the production process, or audit of the management system, or both. The extent to which the four surveillance activities are conducted may be varied for a given situation, as defined in the scheme. If the surveillance includes audit of the management system, an initial audit of the management system will be needed
