Note: The above scope of accreditation is based on the IFCC-IUPAC coding system terminology for Properties and Units in Clinical Laboratory Sciences.

The scope of accreditation represents broad classifications granted by IAS on the basis of the processes demonstrated by the conformity assessment body (CAB). Accreditation is based on the competence and ability to effectively apply the requirements of the relevant standards listed in the CAB's scope of accreditation. IAS accreditation entails review of the CAB's management system and, assessment of the CAB's technical processes. Accreditation does not cover areas outside the scope of this accreditation certificate.
