Other comments:

- I have been looking for this training all this while, but it is not easy to find. Hope to attend similar training in the future.
- Thank you so much to Dr George and Dr David.
- Although I have to sacrifice my 2 days sleep being on the other side of the US, but it is worth every minute.
- Thank you, IAS, for organizing this online training session.
- Great Course
- The fours are more because of me than you. I am learning more all the time. I took what I thought was this a couple of years ago and was pretty lost. But now that I had you guys – I don't think it was me. It was not as if I were not familiar with a lot of this already. I really LOVED that neither of you talked down to us. The last time I took this I felt like it was more to convince us we needed to hire the third-party guy next door to walk us through the Pre Process before submitting anything at a very expensive price. But now I know it was. What a difference in teaching techniques. Thank you.
- A lot of detailed information in a short amount of time. I don't have a great deal of background in this area, and day 1 was a bit disjointed, with questions asked of participants somewhat randomly. The day 2 morning presentation and activities were clear.
- I am interested in any additional courses for staff training in this area. I thought everyone did a great job. I think these things are better in person (group break outs for problem solving, interaction with others in the field) but considering COVID and geographic limitations for participants, it was one of the better ones I have attended.
