Accredited to ISO/IEC 17065:2012

Effective Date November 19, 2024

Products Category	Certification Scheme and Scheme Owner / Standard
Forest and Tree Based Products	PEFC Council GCL International Ltd.
<ul style="list-style-type: none">Chain of Custody of Forest and Tree Based Products	PEFC ST 2001:2020, PEFC Trademarks Rules PEFC ST 2002:2020, Chain of Custody PEFC ST 2003:2020, Requirements for Certification Bodies providing Chain of Custody Certification, Scheme Type 6

Notes:

- The product certification used most closely resembles a product certification scheme type as described in ISO/IEC 17067 (2013), *Conformity assessment — Fundamentals of product certification and guidelines for product certification schemes*.
 - Type 6:** This scheme is mainly applicable to certification of services and processes.

Although services are considered as being generally intangible, the determination activities are not limited to the evaluation of intangible elements (e.g. effectiveness of an organization's procedures, delays and responsiveness of the management). In some situations, the tangible elements of a service can support the evidence of conformity indicated by the assessment of processes, resources and controls involved. For example, inspection of the cleanliness of vehicles for the quality of public transportation.

As far as processes are concerned, the situation is very similar. For example, the determination activities for welding processes can include testing and inspection of samples of the resultant welds, if applicable.

For both services and processes, the surveillance part of this scheme should include periodic audits of the management system and periodic assessment of the service or process.
