Products Category	Certification Scheme and Scheme Owner / Standard
Electrical	Ningbo Xuntong Standard Technology Service Co.
• Electrical equipment and appliances	Xunstd product certification scheme for electrical energy systems, XT-CP-CS-01, Version A/1 Scheme Type 1a
• Communication devices	Xunstd product certification scheme for electrical energy systems, XT-CP-CS-01, Version A/1 Scheme Type 1a
• Electrical Batteries	Xunstd product certification scheme for electrical energy systems, XT-CP-CS-01, Version A/1 Scheme Type 1a
• Electrical Energy Systems, including generating units, storage systems, and components	Xunstd product certification scheme for electrical energy systems, XT-CP-CS-02, Version A/1 Scheme Type 1a

Notes:

1. The product certification used most closely resembles a product certification scheme type as described in ISO/IEC 17067 (2013), *Conformity assessment — Fundamentals of product certification and guidelines for product certification schemes*.
 - a. Type 1a: In this scheme, one or more samples of the product are subjected to the determination activities. A certificate of conformity or other statement of conformity (e.g., a letter) is issued for the product type, the characteristics of which are detailed in the certificate or a document referred to in the certificate. Subsequent production items are not covered by the certification body's attestation of conformity. The samples are representative of subsequent production items which could be referred to by the manufacturer as being manufactured in accordance with the certified type. The certification body may grant to the manufacturer the right to use the type certificate or other statement of conformity (e.g. letter) as a basis for the manufacturer to declare that subsequent production items conform to the specified requirements.
